State University
with 25,000 students
founded in 1945

The University of Lodz in Poland is one of the most modern and largest higher education institutions in the country. Diversity and student friendliness as well as academic excellence are the key features of the institution. Lodz is an exciting metropolis with a very affordable living cost. The International Office supports incoming students as much as possible. Besides studying, there are many attractions and festivals to discover. The international focus ensures a network that will continue to support you for a long time to come.
