

# Experience / Travel Report

Share your experience

## 1. Data (will be filled out automatically)

Host Country	Spain
Host institution	Universidad de Castilla - La Mancha - E CIUDA-R01
Academic Year	2020/2021
Semester	WS 2020/21
Study Field	International Business (Master)
Language(s) of instruction	Englisch
Exchange Program	Studierende Partnerhochschulen Erasmus+ (SMS)
Stay from	21.09.2020
Stay to	15.02.2021

## 2. Preparation of stay abroad:

Information on preparatory measures (application process, language preparation, journey/ travel, housing, if applicable health care and visa)	We were informed well in time about our schedule in Spain. Both our home and host universities gave us enough time to prepare for our travel (For ex. book flight tickets and about the classes). However, there was no support in finding us a place to stay during our semester (One needs to do that on his/her own). All in all things turned out totally satisfactory at the end !

## 3. Studies and life in the host country

What can you tell us about your host university / city (location, orientation and on campus support, accommodation and living costs)	UCLM, Toledo has its campus on a very interesting and a historic Building. That was quite fascinating. The orientation provided to us was dead clear and well structured. The host university however did not provide us with any help to find an accommodation. The living cost in Toledo could be around 800 to 900 euros per month.
Do you have helpful information on course selection / course contents, recognition at HS Landshut, teaching and examination methods / quality etc.	Yes, all information was provided to us in Time. The international team at FH Landshut helped us a lot to choose right courses.
What else do you want to share (e.g. safety, weather, local customs, bureaucracy etc.)?	Toledo is a safe and a beautiful city. It is very touristic but the only thing which could be warned to someone here is that literally no one speaks English there on daily basis.
